The Leading Additive Manufacturing Execution System

End-to-end workflow software to
connect and scale your AM operations

W: www.amfg.ai
E: info@amfg.ai

The Leading Additive Manufacturing Execution System

Connect your entire AM workflow

- ✓ Post-Processing & QMS
- ✓ Requests & Communication
- ✓ Machine Connection
- ✓ Additive with CNC & Injection Moulding
- ✓ Workflow Automation
- ✓ Supply Chain Management
- ✓ Digital Warehouse
- ✓ Scheduling Automation

Distributed Manufacturing

Drive scalability, whether you produce in-house, via partners or follow a hybrid approach to manage peak workloads, AMFG automates your end-to-end part journey.

Traceable End Part Manufacturing

Achieve complete workflow visibility with AMFG. Track each item through automatically assigned serial numbers and meet critical industry standards, such as AS9100 or ISO 9001

Additive with CNC & Injection Moulding

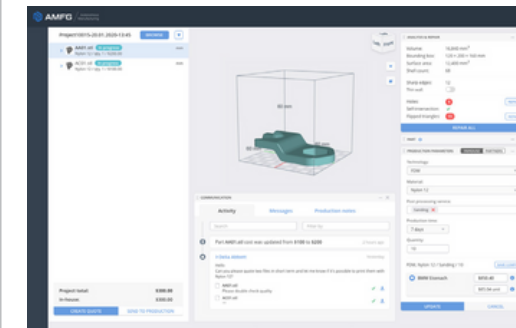

Leverage AMFG's MES SaaS solution beyond additive. Manage and automate your conventional manufacturing technologies in a single seamless workflow.

The Leading Additive Manufacturing Execution System

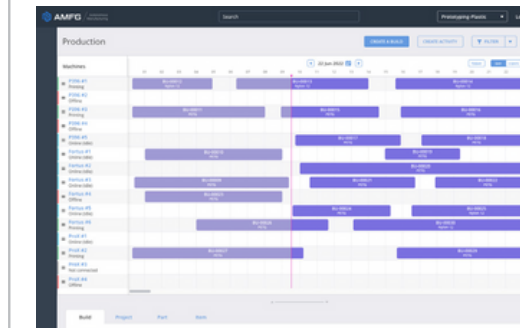

A complete end-to-end workflow solution

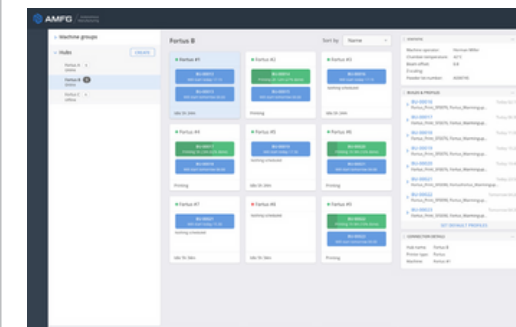

Ordering Portal

Streamline and standardize your order management processes with our centralized order management system and integrated communication tools.

Production Scheduling

AMFG provides a full production suite, incl auto-scheduling for end-parts, so you can achieve full visibility across production sites, optimize machine usage and much more.

Machine Analysis

Use actionable, data-driven insights to achieve maximum ROI and KPI performance with AMFG's integrated machine analytics and reporting tools.

100+ Integrations

AMFG offers a seamless integration to your existing systems including ERP, PLM, BI, CRM, Build Prep, Logistics, for full process automation.

AMFG provides automation software for additive manufacturing. With a complete workflow management solution, we help companies achieve highly efficient and automated AM workflows. Visit www.amfg.ai or email/call us for more.
